

The Prospector- February 2012 PHOTO ADDENDUM

issued Tuesday, February 14

Dear readers: the following 3 pages, showing 4 photos, are to make up for the relatively poor image quality of the same photos seen in the last issue, to which this can be considered an addendum. The photos in general printed fairly well on the hardcopy edition, however it seems that I hadn't quite gotten the hang of composing photos to read well in the .pdf email version. Apparently they needed to be optimized for *publication on the web*, which I hadn't known how to do- until now. Sorry! However, having recently acquired the latest version of Photoshop, Elements 10, helped, after looking thru various menus, and after a lot of fooling around to determine the fairly complicated process! And so, here they are. After all, life is an ongoing learning experience...

Rich Saylor, Editor, The Prospector

From online edition page 3:

Matt & Barb & Susie & Jay & Talma Visit Tucson, 2012...

Hi Rich,

We are in the Phoenix area where Barb is scheduled for back surgery tomorrow so we will miss the meeting Friday.

The first picture is at the Rock Show at Tucson Electric Park, the gang visiting with Jade dealer Mike Burkleo. The second pix is just for you to drool over. The third pix is the gang having lunch at the Riverpark Inn in Tucson. The last picture is a dinosaur walking thru the tent of the 22nd street show in Tucson. -Matt

AARGH!!!
