PRESIDENT'S MESSAGE

Hi everyone!

Well, it's a new year with new enthusiasm for learning, collecting, sharing our love of all things rock and mineral! And all of you infusing our club with your enthusiasm, energy, creativity, talents, ideas and bringing them to life for a great year for the Carmel Valley Gem and Mineral Society...your club! I love and appreciate you all for your efforts in our behalf and I look forward to this new year!

Unfortunately I am off for a month or so as I am having surgery to implant a defibrillator to jump start my very weak heart...my heart has deteriorated to the point of needing this life saving device...glad for technology that has invented these kind of things! But after a two month recovery time I will be better than ever and anxious to be an active rockhouser again!

My wonderful V Pres Margaret will be leading the charge into 2014 this Friday, Jan 10 at 7:00 pm at the PG museum!

Susie Harlow, CVGMS Pres

PEBBLE PUPS

Our meeting will be on January 10. The main program will be about the field trip that some of us took to the desert last October. One of the places we went was to an old garnet mine. We were limited to looking for garnets near the mine. I collected some that I'll be giving to you as your January specimen. Also, garnet is the January birthstone. I hope to see you there. And, think about bringing a friend. We're trying to get more young people interested in joining the club.

Talma Taormina, Scholarship Chairperson

MEMBERSHIP REPORT

At our Christmas Dinner we had 26 members present and 8 guests were in attendance.

2014 DUES ARE DUE.

Dues are \$15 for an individual, \$29 for a couple, \$1 for high school students. Younger kids are free.

Jay House, Membership Chairman

IN THE MAIL... *SERPENTINE!*

The museum will host a talk on serpentine on February 8th by Dr. Susan Harrison (Professor at U.C. Davis); Professor Davis will focus on how serpentine soils offer a window to understanding the evolution and ecology of stressful environments.

California's Central Coast has some amazing ecosystems, and one of them centers on serpentine. What is serpentine? It's the mineral class that makes up our state rock. Serpentine is formed where oceanic and continental plates collide. It's often green, and creates soils where specialized plants survive.

California has the largest exposure of serpentine rocks and soils in North America, and many of them occur in the Central Coast region; one of the very largest serpentine outcrops is in San Benito County. Where serpentine appears, the plants growing there contrast boldly with those covering the surrounding, non-serpentine areas. Some plants grow *only* in serpentine soils, and their presence contributes to California's ranking as one of the world's biodiversity hotspots!

Time & Place: Saturday, February 8, 2014, 3 PM, at the Pacific Grove Museum of Natural History.

\$5 admission at the door; free for Museum members. *Thanks to Annie Holdren, Museum Director, for passing this on!*

SUNSHINE REPORT

Mary Louise Davis reports that Betty Keator was in the hospital briefly this month and is home now. We wish her well.

Bruce Kendall was under the weather this month. We all hope you are better.

The Smith sisters were unable to attend the auction due to their health but sent beautiful wood books ends. Thanks.

*Merry
Christmas!*

AND ON PAGE 9, BETTY WROTE,

"I asked our historian, Maude Underwood, for a brief history of our Club, because if you are like me, you wonder how the Club started and what has happened. This is her report:"

HISTORY OF THE CARMEL VALLEY GEM AND MINERAL CLUB

It was founded in Carmel Valley Jan. 1959. The initial meeting was held at the Tularcitos School on Jan. 10, 1959. The first president was Ivan Thomas. The officers were: Vice-President Bill Culver; secretary, Lois Conley; Treasurer, Francis Myers; Director, Les Borches; and Director Verna Winkler.

There were about 30 members on the first sign-up sheet. It grew to 112 members in the first four months. The meetings were held at the Tularcitos School in Carmel Valley from Jan. 1959 to July 1964. Other places our meetings were held were Carmel Middle School and Carmel High School, 1968.

Where we got our name "The Prospector " was a contest on naming the bulletin. It was Jerry Culver whose name was selected. Our first show was held at the Tularcitos School in 1960. The show was named "Gem Jamboree". On April 25th,
